Subject No. 159.
(a) The Native system of medicine.

Summary of discussion.—(*a*) Some rewards may be promised to Assistant Surgeons and Hospital Assistants to induce them to examine the Native system of medicine and publish works thereon analysing the system and its effects.

A Native Hakim or Pandit may also be attached to each hospital so that persons willing to avail themselves of Native medical aid may do so.

(*b*) A College for instruction in Native medicine.

Summary of discussion.—(*b*) A college may be established in Mysore for imparting instruction in Native medicine, combined with Anatomy, Surgery, &c., according to English methods.

Reply of Government (a) and (b).—Noted.

Subject No. 160.
Allowance to Native Doctors in villages.

Summary of discussion.—There are Native Doctors in villages who are acquainted with the Unani and Hindu systems of medicine. They render good service to people. It is requested that a small money allowance may be given to these doctors to enable them to meet the cost of medicines dispensed by them.

Reply of Government.—Noted.

Subject No. 161.
Providing quarters for Hospital Assistants.

Summary of discussion.—Hospital Assistants when transferred from one place to another suffer much for want of free quarters. It is prayed that quarters be constructed at each taluk kasaba for the use of Hospital Assistants.

Reply of Government.—Noted for consideration.

Subject No. 162.
Increase of Dispensaries.

Summary of discussion.—The number of dispensaries may be increased.

Reply of Government.—Dispensaries are being established in the order of urgency and as men become available to take charge of them.

Subject No. 163.
Strict enforcement of Village Sanitation Rules.

Summary of discussion.—Arrangements may be made for the strict enforcement of the Village Sanitation Rules.

Reply of Government. - The members will be referred to the rules recently published.

Subject No. 164.
Appointment of Sanitary Inspectors.

Summary of discussion.—A Sanitary Inspector may be appointed to each taluk to attend to the sanitation of villages.

Reply of Government.—Noted.

Subject No. 165.
Provision for supply of drinking water in villages

Summary of discussion.—Good drinking water may be provided in all villages where it cannot be had. The rules under the Village Sanitation Regulation insist upon a good water-supply for every village. Funds should be made available.

Reply of Government.—This is being done as far as possible.
